

Online Enrichment Courses

WorldWise Tutoring hopes to provide a **positive escape via learning**. Rather than dwelling on what *didn't* happen this year, we would like to offer students the opportunity to **focus on what they were able to do with their time**.

Potential benefits of enrolling your child in WorldWise Tutoring's Online Enrichment Courses:

- Allows your child to **explore personal topics of interest** in a structured way
- Fosters your child's **creativity**
- **Engages and motivates** your child to **enjoy learning again**, facilitating his/her **personal growth and self-confidence**
- Reinforces **independence and empowerment** in your child through meaningful work and projects that your child can be proud of
- Covers **unique content** not often taught in school
- Provides your child with much needed **social interaction**
- Helps improve your child's **communication and collaboration** techniques to use in peer, parent, and teacher relationships
- Offers the opportunity for your child to network with others who have similar interests, perhaps forming **new long-term friendships**
- Helps your child's **resume/application to stand out**
- Gives you some **guilt-free time to yourself!**

The following pages provide descriptions of our Online Enrichment Courses...

Some things to keep in mind:

Materials Needed: *In addition to a device with internet, this is what the student will need that is not included in the Total Cost. Please let us know if you need help finding any materials.*

Schedule: *This is the time spent with the instructor during lessons. The students will also have relevant assignments and a final project to complete independently between sessions for which they may message the instructor brief, direct questions as needed. For each 1 hour of live instruction, a student can expect 1-3 hours of independent work. **There will be no lessons the week of Thanksgiving (11/23 – 11/29).***

Suggested Ages: *These are merely suggestions based on the content covered. You know your child and what he/she is capable of. So, place your child in whichever age group is the best fit.*
